REMARKS

This Amendment and Response is submitted in response to the Office Action dated December 19, 2000. Claims 1 to 14 are pending. Claim 14 has been amended. Support for the amendment can be found generally throughout the specification and figures.

Claim 14 has been amended to depend from Claim 13.

The Examiner rejected Claims 1-13 under 35 U.S.C. § 102(b) as anticipated by U.S. Patent No. 4,738,667 to Galloway (the Galloway patent). In part, Examiner contends that the Galloway patent discloses an apparatus comprising a shaft and a retention structure non-concentrically disposed about the longitudinal axis of the shaft in Figures 3A and 3B. Applicant respectfully traverses this rejection of the claims.
